Samson Plus 4200 42" Heated Roll Laminator w/ Stand

Part Number # 8600

price: $7,999.95
+ 1 full year warranty

› The Samson Plus 4200 is a heavy duty, industrial strength wide-format laminating machine. Mount, laminate or encapsulate. It features variable speed, heated rollers, reverse, independent upper and lower electronic temperature controls with LED display, and can accommodate rolls up to 8" in diameter. Spring-loaded adjustable pressure on laminating and pull rollers provide smooth, even high quality results. It is designed for multi-purpose laminating and is ideal for wide-format digital output. Includes factory installed take-up mandrel for versatility to use pressure-sensitive films. **Note: We do not recommend using pressure sensitive mounting adhesives due to the lack of clearance between the roll substrate and the bottom tray.

Utility Station

Utility Station
Revolutionary
Sturdy Construction

Specially designed to meet your working and storage space needs, the Akiles Utility Station is ideal for all heavy-weight book binding systems, pouch laminators, trimmers, paper folders and more.

price: $320.00

Part# AUS

Laminator Cabinet

This heavy-duty laminator cabinet is the perfect lamination accessory for any classroom, office, or library. The cabinet accommodates roll laminators up to 35" wide and is capable of supporting up to 400lbs. The locking cabinet doors with a slide-out shelf are the perfect solution for storing extra laminating film (up to 12 rolls of 25"x 500') and other supplies. Smooth-action casters make it easy to move from room to room.

- **Dimensions:**
  36"(W) x 18"(L) 30"(H)

price: $995.00

Part# 1154314

***Assembly required. $25.00 per Utility Station, Stand, or Cabinet.**

Rhin-O-Tuff

The **HD 6500 Heavy Duty Open End Punch** is a 14 inch (356 mm) open-ended punch that features a two bolt die system for changing punch patterns in two minutes or less. It also offers quick, easy set-up: easy pin pulls and pre-set paper stop positions.

price: $3,770.00

The **HD-7000K Heavy Duty Deluxe Open End Punch** is a 14 inch (356 mm) open-ended punch that features the patented "quick change" die system for changing punch patterns in 30 seconds; no tools required and no bolts or screws to replace or misplace. With a full year's warranty on both machine and the dies, this is truly the industry standard.

price: $4,190.00

The **HD 7500H Heavy Duty Deluxe Open End Punch** is a 24 inch (610 mm) open-ended electric punch with a quick change die system. Auto Reverse features, dual motors, and is rated 25 to 40 sheets of 20 lb bond paper. Includes one standard die.

price: $6,790.00

The **HD-7700 Ultima** is an exceptional Table Top Punch that has no equal. Combining the patented Quick Change Die System with the following exciting new features: • 14" (356mm) open ended extra capacity die 1U-View waste tray • The Accu-Set Paper Stop • Diagnostic Display Lights • Built in Automatic and Manual Reverse

price: $4,850.00

HD 4170 Heavy Duty Coil Inserter Module is a heavy duty plastic coil inserting unit offering all the power you need to insert coils from 6mm to 40mm coil and up. A curved jogging plate makes inserting coils easy. With a slot to hold the cutter crimper pliers, they are always at hand. Unit adjusts to 3 positions for various coil thicknesses.

price: $1,495.00

The **HD 4470 Comb Opener Module** is shown here configured with stand alone production feet. This module also mounts on your HD7700, HD7000, or HD6500 machine to create a complete punch and bind station.

price: $535.00

The **HD 8000 Double-o Wire Closer Module** is shown here configured with stand alone production feet. Unit also will mount on your HD series punch to create an all in one punch and bind station.

price: $525.00

Powershred® Shredder Oil & Lubricant

High Security Waste Bags

PRINT HOLDERS ARE AVAILABLE WITH CLEAR PVC STANDS OR WHITE EASEL BACKS

100% Free of Stearates

The PVC used in TPI Print protectors contain no plasticizers or stearates (softening agents). stearates are essentially fatty acid derivatives or petroleum process oils. Others are made from soy or castor oil products. PVC that contains these additives can cause ink and oils. From pain to "migrate" or transfer to the plastic, discoloring it, and more importantly, damaging the print. The does not happen with TPI Print Protectors!! because our high impact grade PVC does not contain plasticizers or stearates, they are totally no-migrating.

AND MORE!

- TPI Print Protectors are flame retardant/self extinguishing. When placed directly in contact with a flame, they of course will burn, but will not continue to burn if that source is removed.
- Wide variety of stock sizes. There is one that is perfect for every application. Custom orders are available (see back page).
- While offering maximum protection and visual appeal they are the most economical product of its type in the market.
- Adds "Hi-Tech' appeal to even the simplest of graphics.

What is a Print Protector?

First, we take two sleeves of clear unplasticized .016 mil Rigid PVC. Then, using our unique Sticky-Strip, we chemically "weld" them together creating a durable and attractive sealed edge on 3 sides. A large .040 gauge opening with an 1/8" inside tolerance dimension provides for easy insertion.
